Keyboard KBPC PX

Premium keyboard for professional writers

Issue October 2004

Pages 2

This premium keyboard is the perfect choice for professional PC working. It attracts attention with its impressive modern design and useful extras.

With combined USB and PS/2 technology, it is well prepared for every modern interface. Gain more comfort with 5 additional function keys to start applications with only one key stroke. Increase comfort with the attachable palm rest.

The power-on switch (PS2) / ACPI key (USB) is always close at hand even if the PC itself is difficult to reach or is placed deliberately out of reach for data security reasons.

The new KBPC PX keyboard with its perfect design is a real eye catcher.

Usability

- Connects to every PC with standard PS/2 and USB interface
- Supports energy saving functions of current operating systems with Power-On button (USB)
- Additional function keys for quick use of applications

Ergonomics

- Stress free and effective use through high contrast keys, ergonomic key design and a soft pressure point.
- Palm rest for better ergonomics included

Tailor-made

- Customize your keyboard with a specific logo plate design
- Specific keycap inscriptions, also in different colors, for your specific designs

Reliability

- High quality and function stability made in Germany through in-house development and manufacturing
- Short reaction and transportation time
- Warranty, service and spare part supply according to your needs

Modern production technology

- Abrasion-proof keys by using laser printing technology for the keycaps
- Fully automated production line
- Highest quality coupled with the best price/performance ratio guaranteed

Environmentally friendly development

- Recycling friendly by easy separation into recyclable components
- Minimized size and weight in combination with minimized use of raw materials.
